RAUM

client needs

Our partners (no artists) need a fast process to experience 3d files in a collaborative virtual workspace.

challenge

With our management center the users can easy upload and download real-time ready 3d assets (glb/fbx/obj).

But if you don´t have a real-time model?

solution

With Rapid Compact Cloud the process is simple and easy to quickly convert the assets for our virtual collaboration platform (and more).

next step

Rapid Compact Cloud x RAUM Integration (alpha)

Just use the RCC to convert, manage and store your assets -> direct connect -> RAUM virtual workspaces.

goody

3 month for free including a team onboarding
email: service@raum.app and use the code in the subject:

3dpipelinedays23

hands on

Try the new RCC x RAUM direct connect and other experiences later here in that room.
